

Trains

Written by Lee-Ann Lear

Trains

Written by Lee-Ann Lear

Trains can be a quick way to
get from one spot to the next.

Trains run on rails. If you study the wheels on a train, you will see a ridge on one edge. This ridge keeps the wheels on the rails.

4

If you spot a set of train tracks, you must watch for trains. A big X will alert you that a train may cross.

6

Nobody loves being stuck in traffic, so trains in the city often go under the street. A city train has plenty of spots to sit or stand.

8

Trains can speed up as they exit the city. You can travel from one city to the next in a blink.

10

A long-distance train will have a spot for your bags, and often you can get a drink or a snack.

12

Have you ever seen a train with a glass top? From the glassed-in deck of this train, you can sit and watch the trees and rivers as you pass by.

14

Trains are one of the best ways to travel!
